🔄 BEFORE AND AFTER

What a regular day with Axel-Team looks like

BEFORE

A day full of small frictions

- ✗ Patients can't get through in the evening and call the competition the next day.
- ✗ Reception fields dozens of identical questions every day.
- ✗ Writing up visit notes eats hours of the doctor's week.
- ✗ Prepping for each patient takes the doctor a lot of extra time.
- ✗ Gaps in documentation only show up during an insurer audit.

AFTER

A day where you can focus

- ✓ Every call is captured. A prioritised list is ready in the morning.
- ✓ Draft replies are waiting – reception only handles the exceptions.
- ✓ The doctor dictates 90 seconds and the visit note is done.
- ✓ A risk-aware briefing lands in the evening – nothing slips past you.
- ✓ Weekly review guards quality – sleep easy before any insurer audit.
